IL SINDACO

SEGRETARIO COM.

Handwritten signature and stamp of the Secretary of the Municipality.

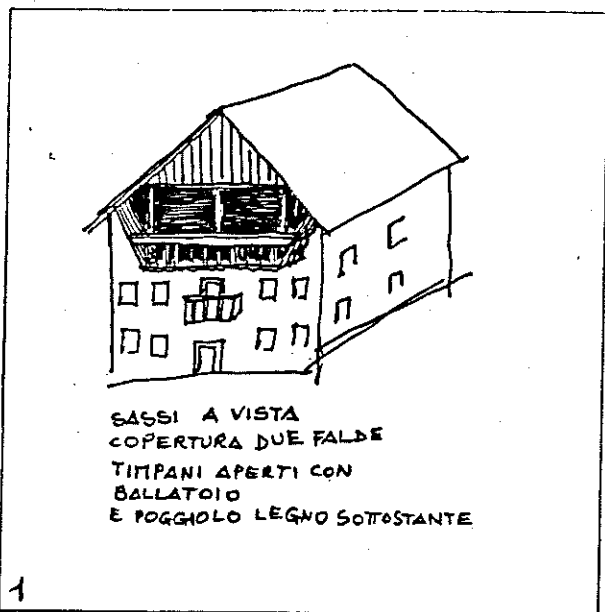

Il presente allegato grafico rappresenta un sus
ssidio esplicativo e propositivo in rapporto a quanto indi
cato dalle Norme di Attuazione, in merito soprattutto al-
le tipologie: è pertanto un riferimento da integrarsi, ol
tre che con le norme già citate, anche con l'allegato fo-
tografico.

Qui vi sono contenuti esclusivamente i disegni eseguiti
liberamente e schematicamente, senza precisazioni dimen-
sionali e geometriche, ma tipici delle idee, delle propo-
ste progettuali e delle possibili soluzioni attorno cui
lavorare per realizzare quanto richiesto dal piano.

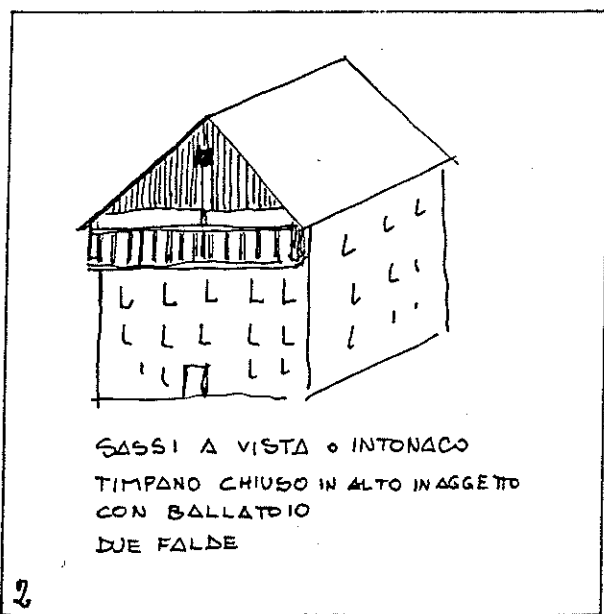

Nel limite del suo approfondimento, tale allegato vuole
anche suggerire un approccio metodologico progettuale:
vuol dimostrare cioè che è possibile progettare in modo
qualificato e moderno proprio ispirandosi alle forme del-
l'architettura preesistente.
